

Let's Make: My First Lion Mask

Hello! I'm Albert the Lion!

Let's make this mask with mum and dad,
and design it together!

Activity Experience

This simple activity offers **parent-child interaction** to create a fun mask together. Let your **child's creativity flow** as he **doodles and designs** the mask with a wide option of mediums. Parents can ask questions/narrate about their choice of colours, mediums or the textures their **little fingers are exploring**, which helps **grow communication and literacy skills**.

Your child **focuses on each task**, enjoys **sensorial exploration** and **learns about cause-and-effect**, while creating his masterpiece!

Activity Tips

1. Get your child to help apply glue and paste this activity sheet on a cereal box.
2. Let your child's creativity flow and design with colour pencils, markers, felt, cotton, glitter, coloured paper & more!
3. Cut out the mask along the outline.
4. Gently use a pen to make 2 holes at the indicated spots. Fasten with rubber band, and VOILA!
